Project Title
Project Title
The IRB wants to see the purpose of the research, a brief overview of the project's inclusion criteria, a brief outline of what the participants will do in the research study within a specified time frame, & incentive for participation. See example/template below:

We are looking for volunteers to help us find out more about why people like to get involved with research as a research participant.

You may be eligible to participate if you…

- Are over 18 years old
- Want to find out more about research studies

Participation includes a survey and an interview that will take 2 hours.

Participants are compensated $25 for their time.
